

## GLOBAL SILICONES & ADHESIVES

### SILICONES

#### Roof & Plumbing Silicone

300gm Tube                      Carton Qty 20

**6854C                      Clear**  
**6854G                      Grey**

Used for waterproofing & sealing flashings, gutters & downpipes on metal, plastic, clay, ceramic & concrete roofing structures. Adheres to aluminium, stone, concrete, GRP, steel, brass, & painted wood etc.

Neutral curing silicone

#### Sanitary & Glazing Silicone

300gm Tube                      Carton Qty 24

**6765C                      Clear**  
**6765W                      White**

Used for sealing around door & window glass assemblies, sealing glass to glass & glass to aluminium, waterproofing and anti-mildew sealing around sanitary ware, sinks & basins.

Acetoxy curing, anti mildew silicone.

#### All Purpose Silicone

300gm Tube                      Carton Qty 24

**6976C                      Clear**

Used for the sealing of glass, aluminium panel curtain walls, metal, concrete, brick, glass skylights, roofing & guttering, shower screens & sinks and many other constructional & industrial uses. Anti-mildew

Neutral curing silicone

#### Building Silicone

300gm Tube                      Carton Qty 25

**SA3200B                      Black**  
**SA3200C                      Clear**  
**SA3200W                      White**  
**SA3200G                      Grey**

Building silicone is a one part, neutral cure, architectural grade silicone sealant designed for internal & external multi-purpose weatherproof and waterproof applications

## CONSTRUCTION ADHESIVES

### Glue Screws

320gm Tube

Carton Qty 20

**6977B Beige**

A high strength, professional quality adhesive specially formulated to eliminate many nailing requirements in construction. Provides a high strength water resistant bond to most building materials including wood, metal, concrete, polystyrene foam and fibre cement sheeting.

### Glue Screws - Solvent Free

320gm Tube

Carton Qty 20

**6977SF White**

A water based, fast grab, high quality construction adhesive that adheres to many construction materials. Solvent Free Glue Screws has a strong bond, low odour, and & is paintable with gap filling properties that bridges gaps on ill-fitting construction material. Suitable for use with timber, masonry, concrete, MDF, particleboard, plasterboard, styrene foam.

## ACRYLIC GAP FILLERS

### Acrylic Gap Filler

450gm Tube

Carton Qty 20

**6465W White**

A premium quality paintable acrylic gap filler for interior & exterior applications. For sealing & filling gaps & cracks where movement occurs such as those between plasterwork, window frames, door frames & skirting boards.

### Gap Sealant

450gm Tube

Carton Qty 20

**6465PC White**

A quality paintable acrylic gap filler for interior & exterior applications. For sealing & filling gaps & cracks where movement occurs such as those between plasterwork, window frames, door frames & skirting boards.

## TECTANE EXPANDING FOAM

### Expanding Foam

**13210** 500ml Aerosol Ctn Qty 12

**13211** 750ml Aerosol Ctn Qty 12

Multi-purpose hand held expanding polyurethane foam. Expands up to 30 times can volume. For sealing, bonding, filling and insulating most construction materials. Rapidly fills holes & cavities. For interior and exterior use. For fixing window and door frames, for insulation between brickwork & cladding, water pipes, tanks, cables, as a joint backing material. Can be used with all types of sealant. Excellent adhesion. Once cured can be cut, sawn, sanded, painted or plastered over. For all domestic, industrial and automotive applications.
